

Creative thinking: Healthcare solutions

UKIHMA offers innovative solutions to complex healthcare challenges

Medical advances in new drugs, cutting edge technology and innovative models offer new opportunities for delivering excellence in health and care services.

Drawing on our pool of UK experts in all aspects of healthcare design, build and delivery we work closely with clients to creatively problem solve, address any barriers to change and jointly prepare a refreshed range of options.

About UKIHMA

- The United Kingdom International Healthcare Management Association (UKIHMA) is a membership trade organisation established over 8 years ago by Healthcare UK, part of the UK government.
- UKIHMA's diverse membership base has expert skills and experience ranging from strategic planning and feasibility studies, design and build, education and training, digital and med tech innovations through to longer term facilities management and value based assurance on all aspects of health and care.
- We are a solutions based organisation, creating tailored packages of support in response to clients specific requirements.
- Our support in creative problem solving is free of charge and will result in both new ideas for you to take forward and commercial business offers, at no obligation.

Harnessing the very best of UK expertise

Specialist Equipping

Our offer

We offer healthcare organisations the opportunity to develop new ways of addressing their healthcare challenges. Through creative solutions 'hackathon' style workshops, we support organisations to identify options for implementation. Our approach covers 4 key stages:

- **Scoping** - initial discussion to undertake needs analysis.
- **Exploring** - workshop(s) with UK experts to explore new and innovative approaches in meeting the identified service need.
- **Advising** - presentation and exploration of tailored options appraisal.
- **Proposing** - selection of solutions and commercial business propositions.

Benefits

- Access to UK commercial and NHS expertise.
- External review and recommendations on your current and future needs.
- Menu of solutions and options for implementation.
- Opportunities for commercial business partnerships.
